

Golden Sun PV Industry Summit 2010

Conference Themes

- Golden Sun Demonstration Program Experience Communication
- PV Demonstration City Communication
- Advanced Techniques of PV Industry
- Euro-China Communication on Solar Application and Technique
- Investment, Financing and Standardization Certification
- Large-Scale Solar Thermal Power Plant
- Mainland and Taiwan Communication on PV Industry

Featured Guests

- | | |
|------------------------------|--|
| Mr. Zhang Guobao | Director-General of National Energy Administration P.R.C |
| Mr. Shi Lishan | Deputy Director of National Energy Administration P.R.C |
| Mr. Feng Jichun | Director-General of Department of High and New Technology Development and Industry of MOST P.R.C |
| Mr. Wen Lishi | Academician of both the Chinese Academies of Science and Engineering |
| Mr. Gert Gremes | President of Gruppo Imprese Fotovoltaiche Italiane |
| Mr. Frank Haugwitz | EU Renewable Energy Manager of EU-China Energy and Environment Program |
| Ms. Stefania Prestigiacomo | Italian Ministry for the Environment, Land & Sea |
| Mr. Laurent Javaudin | European Commission Trade and Investment Section |
| Mr. Alessandro Celestino | Sino-Italian Cooperation Program for Environmental Protection |
| Mr. Ajay Prakash Shrivastava | President of Solar Energy Society of India |

Conference Committee

Chairman

- Mr. Shi Dinghuan President of CRES, Counselor of the State Council P.R.C

Deputy Chairman

- Mr. Li Baoshan Secretary General of CRES
Mr. Zhao Yuwen Vice- President of CRES, Director of CRES PV solar committee

Chairman of academic committee

- Mr. Shen Wenzhong Director of Shanghai Jiao Tong University Energy Academe

Deputy Chairman of academic Committee

- Mr. Meng Xiangan Vice- President of CRES
Mr. Wang Sicheng Energy Research Institute of NDRC
Mr. Shen Hui Director of Institute for Solar Energy System of Sun Yat-Sen University
Mr. Zhao Ying Nankai University Photo-Electronic Institute
Yang Deren Professor of National Key Laboratory of Silicon Materials, Zhejiang University

Executive Director

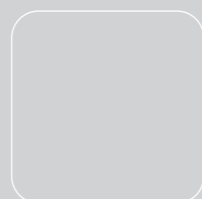

- Mr. Wu Dacheng Secretary-general of CRES PV solar committee

Deputy Executive Director and Secretary-general

- Mr. Li Zisen Office Director of CPVC

Deputy Secretary-general

- Ms. Iris Fan Executive Director of ECSPA
Mr. Liu Huihong Office Director of CRES

China World Trade Center

China World Trade Center (CWTC) located in the core of Beijing CBD, Chaoyang District and close to the famous East Chang' an Avenue. As one of the most modern exhibiting center, The CWTC Exhibition Hall holds more than 50 events every year, many of which have been the bellwether in their respective sectors.

China World Hotel

Located in the heart of the diplomatic and financial district and close to the Forbidden City, China World Hotel is one of Beijing's finest hotels. Being part of the China World Trade Center, this luxury hotel offers unrivalled access to its extensive conference and exhibition facilities, making it a perfect starting point for both business and leisure.

Euro-China Solar Promotion Association

Tel: 0086-10-8719 4418

Fax: 0086-10-8719 4416

E-mail: ipvsee@solarpromotion.org

Add: A 401, Xinghaihongchang Building, Xizhaosi Middle Street, Chongwen Dist.Beijing, 100061 China.

IPVSEE2010

2nd (Beijing) Int'l PV Solar Energy Conference and Exhibition

Golden Sun
PV Industry Summit 2010

Exhibition: 27-29, Sep 2010 China World Trade Center
Conference: 27-28, Sep 2010 China World Hotel

Organized by

China Renewable Energy Society (CRES)
Euro-China Solar Promotion Association
PV Solar Committee of CRES
Italian PV Industry Association (GIFI)

Co-organized by

UNIDO International Solar Energy Center
European Commission Trade and Investment Section
Science and Technology Center of Ministry of Housing and Urban-Rural Development of P.R.C
Solar Building Committee of CRES
Beijing Sustainable Development Center

National Energy Commission (NEC) has been set up to take charge of drafting China energy development plans, reviewing energy security and coordinating international cooperation on 27th, Jan 2010. Moreover, Chinese Premier Wen Jiabao will head NEC to coordinate with different ministries to exchange ideas and expertise to achieve the reduction of CO2 emissions.

It's just IPVSEE

The multidimensional exhibition structure of PV products display, new technology releasing, advanced technique research and solar energy science popularization provides more opportunities of cooperation between exhibitors and visitors.

What Exhibits

☀️ PV Manufacturing Equipment

Ingot / block manufacturing equipment / Wafer production equipment / Cleaning equipments / Amorphous silicon cell / CIS / CIGS cell Laminating equipment / Turn-key system-Etching / Screen printer and other relevant equipment / DSSC manufacturing technology and research equipment / Testing equipment / Thin film panel manufacturing equipment

☀️ PV Projects and Systems Integrators

PV system integrators / Solar power air conditioner system / Rural PV power generation system / solar power measurement and control system / solar power warming system projects / PV projects programs control / engineering control / software system

☀️ Components

Batteries / Chargers / Controllers / Converters / datalogger inverters / monitors/ mounting systems / trackers / others Category Description

☀️ Solar Thermal Products

Solar outer wall / solar roofs / Solar thermal concentrating technology and system/ solar water heater solar cooker / solar air heaters / heat pumps, and other solar thermal products.

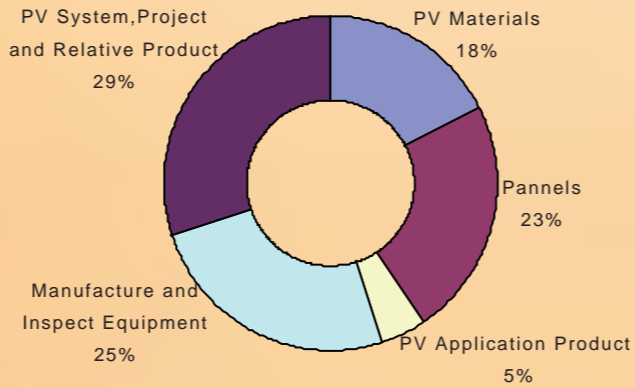

Who Exhibits

The first (Beijing) International Photovoltaic Solar Energy Conference and Exhibition (IPVSEE2009) impressed the participants from all over the world.

10,000 Sq. m Exhibiting Area 5,000 Professional Visitors from 29 Countries 92 Participating Companies 120 Media

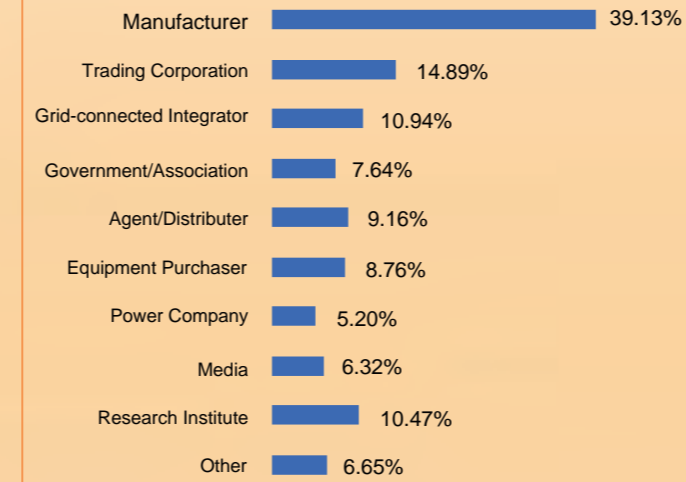

Exhibitor Sector

Exhibitors' Satisfaction Survey

87% exhibitors are satisfied with IPVSEE2009 and reached the objectives: Promoted brand, expanded advocacy and developed new customers.
84% exhibitors expressed satisfaction with the quantity and quality of the visitors
79% exhibitors expressed their willingness to the next edition.

Visitor Profile

The Concurrent Events

China New Energy Pictorial Display

The display is composed of nine parts of 42 boards and demonstrated the whole process of China new energy development with bilingual. Furthermore, the pictures emphasize on the achievements and developments of China PV solar industry from 1970s, including BIPV, Miniature solar electric power, the ground application of solar cell, the application of solar cell in urban environment, Stand-alone PV Power Station, Grid-connected photovoltaic system and engineering etc.

The Popular Science Show on PV Power Generation

The Popular Science Show on Photovoltaic Power Generation displayed the convenience of solar industry to people's lives through the Tibetan residential model together with the solar energy products.

Why Exhibits

To get the most accurate PV information of China

First time to learn about the most accurate information on China energy strategy, industry subsidy policies and the proposed PV projects in process, IPVSEE is your best choice.

To meet the most authoritative experts

BIPV, Golden Sun Demonstration Program, PV product applications and Large-scale solar thermal power plant etc, attracted the attention of experts from Germany, Japan, South Korea, Italy, Spain and India last edition. Therefore, IPVSEE2010 will further communication between China professionals and international representatives.

To feel the most perfect experience on site

Suntech Power, Yingli Green Energy, Jiangsu Linyang, Changzhou TrinaSolar, Chint Solar, Sungrow Power and Beijing HOPE SOLAR POWER etc, were all there in the international hall impressing all the visitors with the beautiful design, innovation construction and comfortable decoration.

To establish the most extensive cooperation

The representatives of 92 companies from 29 countries and regions are throughout the photovoltaic industry chain. Additionally, more than 30 forums and seminars offered a grand platform for all participants to collaborate.

Value-added Services

Supported by Authorities

IPVSEE2010 achieved the supports from New and Renewable Energy Department of State Energy Administration P.R.C, Department of High and New Technology Development and Industrialization of MOST P.R.C, International Solar Energy Society (ISES) and Italian Ministry for the Environment, Land & Sea.

BIPV Special Zone

BIPV Special Zone held jointly by the organizer of ECSPA, together with Science and Technology Center of Ministry of Housing and Urban-Rural Development of P.R.C fully display the perfect combination of solar energy and architecture.

Global Promotion Campaign

The global promotion of ECSPA covers 30 main solar exhibitions in 20 countries, for example, EUPVSEC, Intersolar, PV Japan and Sireme etc, and there are hundreds of China Companies participate the campaign every year.

Free Bid Information Sharing

After registration online, the exhibitor access to share bidding clues related to PV solar approaching projects of China, which make you the first to obtain information and keep ahead of the counterparts in the fierce competition.

Strong Network Propaganda

The exhibitors are available to update company info, pursuit the partnership and make business matchmaking after registration. In addition, IPVSEE deliver E-news letters and press release to 7,000 professional visitors every month, Therefore, registering earlier means more promotions.

Sponsorship Packages

Many alternatives of sponsorship dedicate to exhibitor, for example, IPVSEE2010 Opening Banquet, Golden Sun PV Summit 2010 and China New Energy Pictorial Display, Which enable you to be VIP to welcome all the visitors from over the world.

Promotion through Media

More than 100 press agencies, for example, CCTV, CCTV Energy Channel, Xinhua News Agency, Associated Press, Phoenix TV, Solar Energy Magazine, China New Energy Network, SHINE Magazine, PHOTON Magazine, Gerun369 Network, CIEN, etc provide more exposure opportunities to the exhibitors.
